

Feng Shui Vision Board

Feng Shui teaches us that the placement of colors or elements (water, fire, earth, metal and wood) according to a map called Bagua which creates an optimal environment for 'qi' (chi) energy to flow. Knowing how to attract its beneficial currents, you can achieve a successful life.

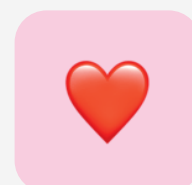

To create a Feng Shui vision board, brainstorm all of the things you'd like to manifest. Then collect words, affirmations, and/or pictures that represent what you'd like to call into your life. Now place them into each area on the board.
